On 10 February 2009, the petitioner submitted a motion for oral argument. The respondent opposes the motion.

By order of 11 March 2009, the Court granted a motion by the petitioner for expedited review of his petition for extraordinary relief.

Having considered the matters submitted by the petitioner and the respondent, the Court finds that their respective briefs thoroughly address all relevant facts and legal precedent. Oral argument would not further aid the Court in resolution of the underlying petition.

Accordingly, it is by the Court on this 19th day of March, 2009,

ORDERED:

Petitioner's Motion for Oral Argument is hereby **DENIED**.
